<p>1. Technical debate organized by Moldova Branch and the Faculty of Civil Engineering and Installations in Iasi, on 30 June 2016, with the title: „New technologies used in the construction and rehabilitation of transport infrastructure" and „Creation and innovation in the field of bridges. Contest of bridge models.“ The manifestation had three themes: "Special tracking of the behavior in time for the bridge on the DN 22B National Road, over the Siret river, in Galati", "Advanced execution technologies of Oituz – Stefan Gusa subterranean passage, in Bacau" and "New technologies used in the rehabilitation of the arch bridge of reinforced concrete located on the DN 15 National Road over the Bicaz river, in Bicaz". The topics were prepared and presented by Prof. Dr. Eng. Cristian-Claudiu Comisu and lecturer Dr. Eng. Gheorghita Boaca.</p> <p>The students were present at this event with projects for bridges, as they see them, and finally presented the bridge model with which they participated in the international competition organized by the Boğaziçi University in Istanbul-Turkey.</p> <p>2. Technical visit for 40 students, organized by Bucharest Branch and the Faculty of Railways, Roads and Bridges at the Giurgiu – Ruse bridge, on 29 March 2016. The bridge has undergone on consolidation works, which students had the opportunity to see them live.</p>
